*New Haven*  
*Nurseries*

CONDENSED

# WHOLESALE AND RETAIL PRICE LIST

FOR

FALL 1901 AND SPRING 1902

. . . OF THE . . .

## NEW HAVEN NURSERIES,

NEW HAVEN, MO.

Located 67 Miles West of St. Louis on Main Line Missouri Pacific Ry.

ESTABLISHED 1872.

INCORPORATED 1892.

CAPITAL STOCK \$30,000 FULL PAID.

We mail this condensed list of prices to our friends and customers and will ask that they favor us with their orders as early as practical. **The prices** are for the goods **at your station**, if your order amounts to \$15.00 or more. We have now growing in our nurseries over one and a half million fruit trees by actual count. All clean and healthy. **Entomologist's certificate** with each shipment. No San Jose Scale, Yellows or Rosette has been found in this county. Over 250,000 trees from our nurseries sent to Pacific Coast States during 1900 and 1901.

### CERTIFICATE OF NURSERY INSPECTION.

**This is to certify**, that on the 29th day of August, 1901, I examined the Nursery Stock of the NEW HAVEN NURSERIES, (J. BAGBY & SONS Co.,) grown in their nurseries at and in the vicinity of New Haven, Franklin county, Missouri, and found no indication of the presence of San Jose Scale, Peach Yellows, Rosette, or other DANGEROUS insects or plant diseases, liable to be transferred on nursery stock from the nursery to the orchard.

This certificate is good for one year from date of inspection.

J. M. STEDMAN,

*Entomologist, Experiment Station, Columbia, Mo.*

## TERMS, CONDITIONS AND DIRECTIONS.

**TERMS.**—Invariably cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Bank Draft.

**It is important that you order early. For the benefit of customers who wish to order early,** but who do not care to spare all of the money when the order is sent, we will accept such early orders if one-third of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

**DIRECTIONS FOR ORDERING.**—Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this List. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when the stock arrives, you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental and we wish to right them.

**FREE FREIGHT, FREE EXPRESS.**—On all orders over \$15.00, accompanied by full remittance, we will **prepay** the Freight or Express Charges to your R. R. Station if East of Denver, Colorado and El Paso, Texas.

**THE PRICES** are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates respectively.

**PACKING.**—All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customers best interest. Everything is labeled.

**OUR GUARANTEE.**—The fact that nurserymen, planters and fruit growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of thirty years standing. But if any mistakes occur, we will cheerfully rectify them.

**We use the greatest care possible to have our stock true to name,** and should any prove not true, we stand ready to replace it free of charge or to refund the purchase money, but do not hold ourselves liable for any greater amount than the first cost of stock that may prove not true.

**All our shipments of trees** will be accompanied by **Certificate of Inspection** of **Prof. J. M. Stedman, Entomologist.** This is a guarantee to the buyer that our stock is free from all disease. Missouri grown trees are the best. Good stock, true to name, sold direct to planter at reasonable prices is our aim.

**OUR LOCATION** is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first-class and we have special low **Express rates.**

**Remember that we pay the Freight or Express Charges on all orders amounting to over \$15.00, and guarantee safe arrival of shipments.**

We solicit Correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

# NEW HAVEN NURSERIES,

(J. BAGBY & SONS CO.,)

NEW HAVEN, MO.

## SOME REMARKS ON VARIETIES, SIZES ETC.

We wish to say that the **small size trees** are **strictly first-class** and **well rooted** and by many will be preferred to the larger size.

**VARIETIES.**—So many ask, "What should I plant in my locality?" that we will here name a few of the popular and profitable sorts of general planting:

**APPLES.**—Ben Davis, Jonathan, Mam. Black Twig, Gano, York Imperial, Rome Beauty, Wine Sap, Grimes' Golden, Maiden's Blush. This is our Commercial List. Others would add perhaps Wealthy, Ark. Black, Ingram, Mo. Pippin, Duchess Oldenburg, Etc. All of the above are good profitable sorts, both for home use and the market.

**PEACHES.**—If you want to market your fruit, avoid planting to many early sorts. Reeves, Family Favorite, Fitzgerald, Foster, Champion, Mixon Free, Stump, Elberta, Heath, Cling, Miller Cling, Crosby, Capt. Ede, Gold Dust, Chair's Choice, Gold Medal, Salway, Crawford's Late and Bonanza are all profitable for market. Should early sorts be desired, Triumph, Alexander and Sneed are what you should plant. If for home use, plant general assortment, including above, for a succession, be sure to include Golden Gate, Queen and Carman. The peach tree should have the shoots and branches shortened every year or two. The land should be kept in a high state of cultivation.

**PEARS.**—The fact is more and more apparent that Kieffer and Garber will stay in the lead for profit. Duchess, Seckel, Bartlett, Jersey, Etc., should also be in most orchards.

**CHERRIES.**—Early Richmond, Dyehouse, Montmorency, Wragg, Eng. Morello (sour), Gov. Wood, Elton and Sappington (sweet), do very well and are profitable. Try our new sweet variety—**MAGANN.**

**PLUMS.**—Wild Goose (native), Damson, Shipper's Pride, German Prune (European). Ogon, Abundance, Satsuma, Wickson, Red June, Willard and Burbank (Japanese), are all good bearers and are profitable. We consider the Abundance, Wickson and Burbank the best of the well-known Japanese sorts. Try some or all of the Japan sorts.

**THINNING FRUIT.**—When the trees are heavily laden, the fruit should be thinned when about one-third grown, else the fruit will be poor and the trees injured. The necessity for thinning was fully demonstrated during the dry summer of 1901.

**WHOLE ROOT TREES.**—The "Whole Root" schemes we can but compare in our mind to the working of Patent Medicine Men and Quacks. They try to scare you into buying their goods. Pear, Peach, Plum and Cherry trees ARE ALL grown on "whole roots." Our Apples are all on so-called whole roots, grafted and planted so that the cion also roots. Don't pay extra prices for "trade-marks." We give our customers the VERY BEST, and we don't ask two PRICES. A trial order will convince you.

**NOTE.**—That we offer heavy budded one year apple trees—budded above ground—on branched root stocks (whole roots). Our one-year buds are equal to two-year grafts, grown by many nurserymen.

We are growers of what we sell, having over 300 acres devoted exclusively to the nursery business. Many so-called nurserymen are simply jobbers in the trade, and cannot sell stock with the same certainty of its being true to name and free from disease.

To those who wish to know more about the quality of stock we grow, we can refer to such large planters as L. A. Goodman, Westport, Mo.; Hon. Richard Dalton, Saverton, Mo.; J. G. McNair, St. Louis, Mo.; G. N. Ratliff, Moberly, Mo.; C. G. Winn, Griggsville, Ill.; H. T. Mudd, St. Louis, Mo. These parties have bought and planted our trees in large quantities. Aggregate sales to above orchardists over 100,000 trees.

Shipments to Pacific Coast and Southern States from our frost proof storage during winter months via Southern Routes.

**We pay the Freight** on all orders amounting to over \$15.00, at prices in this list.

## APPLE TREES.

Our apple are all grown on Missouri River upland, are well rooted, smooth, clean and well grown in every respect. **No better Trees can be found anywhere.** We offer also **budded Trees**, which are ideal. They are smooth and clean with **splendid roots**.

	Each.	10.	100.	1000.

## SELECT VARIETIES.

**SUMMER APPLES.—Carolina Red June.** (Red June). Medium size, red; flesh white. Last of June.

**Duchess Oldenburg.**—Russian, medium to large size; skin yellow, streaked with red and somewhat blushed. Productive; August.

**Early Harvest.**—Medium to large, bright straw color; flesh white. Tree moderately vigorous and productive; one of the best. First of July.

**Golden Sweet.**—Rather large; pale yellow: very sweet and good. August.

**Keswick Codlin.**—Large, excellent for cooking; productive and early in bearing. July and August.

**Red Astrachan.**—Large, crimson, handsome; rather acid, but good and crisp; profitable. Early.

**Summer Queen.**—Medium to large; surface yellow, blotched and streaked with red; flesh yellow. August.

**Sweet Bough.**—An old favorite, fair size, good quality.

**Yellow Transparent.**—This valuable Apple is said to be of Russian origin. However, we find it to be a very valuable addition to our list. Fruit medium to large; nearly white.

**FALL APPLES:—Maiden's Blush.** Rather large, evenly shaded red check or blush on a clear-pale yellow ground; bears large crops. August and September.

**Rambo.**—Medium; streaked with dull red and somewhat dotted, productive and vigorous. September to November.

**Rome Beauty.**—Large, yellow, shaded with red; tender, juicy, subacid. October to February.

**Wealthy.**—An Apple of fine appearance and quality; an early and profuse bearer; a good market Apple of its season. Tree hardy; in size and beauty it equals Baldwin, and is a better dessert Apple. Ripens here last of August. Winter Apple North.

In addition to above described fall varieties, we grow Fulton, Haas, Colvert.

**WINTER APPLES:—Arkansas Black.** Origin Bentonville, Arkansas. The tree is a beautiful upright grower, young wood very dark. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly subacid, crisp. One of the best cooking Apples; vigorous. January to May.

**Akin.**—Size and color *very much like Jonathan*, but *keeps three months longer*; ILL. HORT. SOC.: The original Akin tree is 7 feet 3 inches in circumference, about forty feet high, and over 60 years old. A regular bearer. Keeps until April or May.

**Babitt.**—A strong, large grower; wood hard and tough; heavy bearer. Ready to cook as soon as grown, but it is so acid that few like to eat it uncooked until the latter part of the season, when it is a favorite eating apple.

**Ben Davis.**—Fruit medium to large, flesh white; an excellent variety. Tree very hardy, a free grower, coming into bearing early, and very productive; very popular. December to March.

**Clayton.**—Large, conical, flattened, regular; red, with darker stripes; flesh yellow, breaking, subacid; Tree a strong grower, long lived. December to March.

**Grimes' Golden.** Medium to large; rich golden yellow; flesh tender, mild, subacid. Should be gathered before turning yellow and put in a cool place, and will often keep until February. For canning purposes it nearly equals the pear. Tree hardy, vigorous; an early and abundant bearer. November to January.

**Huntsman's Favorite.** Originated in Johnson County, Missouri. Very large; golden yellow, with bright red cheek; nearly sweet, fine flavor, very aromatic. One of the best and highest selling market Apples; tree very healthy and moderately productive; November to January.

**Gano.**—This Apple was introduced to the public in 1886. It has surpassed that famous commercial variety, Ben Davis, in this section. Tree very hardy; has never been injured by the cold winters; bears very young. Fruit bright red on yellow ground, no stripes; large, oblong, tapering to the eye; surface smooth, takes a very high polish, making it valuable as a stand fruit; flesh white. An early, annual and prolific bearer. December to May.

**Ingram.**—A seedling of the old Janet. Originated near Springfield, Mo. Its habits are similar to the Janet, but the tree is a more upright grower, and the Apple is not subject to crack. Size medium; striped bright red in the sun; flesh greenish yellow, agreeable, subacid flavor; good keeper. Tree hardy, late bloomer and very productive.

**Janet.**—Rawle's Janet; Medium, roundish, greenish yellow, striped with red; rich and juicy, one of the best and longest keepers in the South and Southwest; valuable for its high quality and its late blooming; moderate grower. January to March.

**Jonathan.**—Fruit medium, roundish; skin yellow, nearly covered with dark or lively red; moderate grower. One of the best Apples for home use or market. October to January.

**Tompkins King.**—Well known and a valuable big red apple. It is not always satisfactory but is worthy of consideration.

**Longfield.**—A very hardy variety, chiefly valuable in the cold north and north-west. Fruit is small; the tree is productive to a fault. Season but little later than M. Blush, though usually offered as a winter apple.

**Mammoth Black Twig.**—Supposed to be a seedling of the Wine Sap, but tree a better grower in the nursery, and fruit much larger; or, in other words, an improved Wine-sap. Tree a fine, upright, spreading grower.

**Mann.**—An upright grower, forming a round head; fruit medium to large, roundish oblate; skin deep yellow when fully ripe.

**Missouri Pippin.**—Large, oblong, bright red, with numerous gray dots, very handsome, fair quality, an early and very abundant bearer, and very profitable. December to March.

**Salome.**—A northern Illinois Apple, said to be very hardy, bearing early and abundantly. Resembles the Janet in size and color; a good keeper. January to April.

**Talman's Sweet.** Medium; pale yellow, slightly tinged with red; firm, rich and very sweet; valuable baking apple; vigorous and productive. November to April.

**Vandevere.**—An old and popular sort for home use.

**White Winter Pearmain.**—Large, roundish, oblong, conic; pale yellow; December to February.

**Willow Twig.** Medium size; light yellow, shaded and marbled with dull red and sprinkled with russet dots; flesh yellowish green, pleasant, sub-acid. Tree blights badly as a rule, hence cannot recommend.

**Winesap.**—Medium, dark red; a favorite market variety in the West; November to April.

**Wolf River.**—Very large and handsome; flesh whitish, sub-acid; a good bearer. November and December.

**York Imperial.**—This Apple has been gaining in favor, and is being planted largely in the West as a commercial sort. Large.

**CRAB APPLES :—Hyslop,**

**Whitney,**

**Transcendent.**

### SPECIAL SORTS.

	Each.	10.	100.	1000.
5 to 6 feet, select .....	\$0.25	\$2.00	\$12.00	\$95.00
3 to 5 feet, first class.....	0.25	2.00	10.00	80.00

**Athens.**—The finest yellow Cling in existence. Very large, hardy and productive. Season September.

**Barnes.**—A late Blood Cling. Season October 1st.

**Carman.**—White flesh, large with beautiful mottled red cheek. A valuable home or market sort. Season about ten days later than Alexander. Our stock came from the originator.

**Fitzgerald.**—Of Crawford type. A seedling found at Oakville, Ont., where it stands the winter perfectly, is undoubtedly VERY HARDY. Quality first-class, freestone, and we recommend it with entire satisfaction.

**Gold Medal.**—Elberta shape and color, larger and about ten days later than Elberta. Freestone.

**Golden Gate.**—Originated by Dr. Smith, of Hermann, Mo. Very productive, large beautiful yellow. Season, a week later than Elberta.

**Queen.**—A very late September variety. Originated in Howell County, Missouri, Freestone, white flesh, red cheek. Season September.

**Lady Ingold.**—In great demand as a popular, market sort. Yellow, Free.

**Miller Cling Peach.**—An extra large clingstone. Hardy, productive, and of best quality. Earlier season than Heath Cling, but larger and better color. We consider it the **best of all clingstones**.

**Matthews Beauty.**—Originated in Georgia. A large late Yellow freestone. Fully as large as Elberta and two weeks later. Would advise extensive planting of this sort.

## PLUM TREES.

	Each.	10.	100.	1000.
First Class trees, 5 to 6 feet .....	30c	\$2.50	\$18.00	\$150.00
First Class trees, 4 to 5 feet .....	25c	2.00	15.00	130.00
First Class trees, 3 to 4 feet.....	20c	1.50	12.00	90.00

### OUR SELECT LIST OF VARIETIES.

**Abundance.**—A hardy productive Japanese sort. Large purplish red; quality very best. Season, early in July.

**Burbank.**—Large, varying less in size than the other Japanese Plums; it is nearly globular; clear cherry-red, with a thin lilac bloom; flesh deep yellow, firm and meaty, tree vigorous and productive.

**Common Damson.**—Well known and very productive. Season September.

**Golden Beauty.**—Round, large as Wild Goose; rich golden yellow; very firm; small seed, nearly free, excellent in quality, immensely productive. September.

**German Prune.**—Very profitable, and will succeed wherever Common Damson can be grown. Very large. We consider it the best of the European sorts. August and September.

**Ogon.**—It is large, nearly round; of the brightest golden yellow; flesh firm, sweet, rich and dry; ripens a little earlier than Abundance or Botan. Freestone; vigorous and hardy.

**Red June.**—One of the best Japanese varieties. Ripening before Abundance. Tree upright, vigorous, hardy.

**Shropshire Damson.**—A plum of fine quality, sprightly. In market it has commanded nearly double the price of the Common Damson, and is enormously productive. Last of September.

**Shippers's Pride.**—This plum originated in northwestern New York, near the shore of Lake Ontario. Size large; color dark purple. First of September.

**Willard.**—One of the imported Japanese varieties, ripening before Abundance. When ripe is dark red.

**Wild Goose.**—Large, rich, crimson, beautiful, flesh soft, rich, melting, delicious with a full fruity flavor. Tree a strong grower, prolific. This variety is among plums what the Ben Davis is among apples—referring to the American class of plums. July.

**Wickson.**—We regard this as the **best** of the late ripening Japan sorts. Readily parts from the seeds. Extra large and we can advise extensive planting for home and for market. Season August.

## STANDARD AND DWARF PEAR TREES.

Our Pears are especially clean, smooth and well rooted, grown on x x French imported stocks. Varieties marked D. & S. can be supplied in either standard or dwarf.

	Each.	10.	100.	1000.
Leading sorts, first-class 5 to 7 feet, 2 years.....	\$0.30	\$2.00	\$16.00	\$150.00
Leading sorts, 4 to 6 feet, 2 years.....	0.25	1.75	14.00	130.00

Leading sorts, sours, first class, 3 to 4 feet.....	0.30	3.00	25.00

## OUR SELECT LIST OF VARIETIES.

**Baldwin.**—A new variety of great promise, hardy and productive.

**Dyehouse.**—Very early and sure bearer; ripens before Early Richmond; but not quite as productive. May.

**English Morello.**—Medium to large; blackish red, acid, juicy. Very productive. July.

**Early Richmond.**—(Kentish, Virginian or Early May). Medium size, red; melting, juicy sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is exceedingly productive. First of June.

**Elton.**—A splendid sweet sort, about ten day later than Gov. Wood, which it somewhat resembles

 **Free Packing and Free Freight on Conditions indicated.**

**Gov. Wood.**—One of the best cherries; very large, light red, juicy, rich and delicious. Tree healthy and a great bearer. May and June.

**Large Montmorency.**—No doubt one of the finest acid cherries; tree very hardy and an immense bearer; commences to fruit while young, and is loaded annually thereafter with fine crops; fruit of good size, fine flavor, and of bright clear, shining red; valuable everywhere, especially for northern latitudes; larger than Early Richmond, and fully ten days later. End of June.

**Magann Cherry.**—A new hardy, sweet Cherry. Original tree in Franklin County, Missouri, supposed to be about forty years of age, and producing annually. Fruit large, showy, almost black when fully ripe, growing in large clusters. Tree immensely productive and never fails to bear a crop. It will pay you to include some of these in your order for other stock.

**Wragg.**—Originated in Iowa. Medium to large in size, long stem, dark purple when fully ripe. A variety well adapted for the high latitude and prairie regions of the northwest. This is the very best sour variety. July.

### **Judge Sam'l Miller in Colman's Rural World, St. Louis, Mo.**

For several years I have intended visiting the nurseries of Bagby & Sons, New Haven, Mo. July 26th we made the trip.

I met Robert Bagby, the oldest of the sons, and soon we were driving and walking among the trees. There are so many different plats that one might call them a lot of nurseries.

A constant cultivation is kept up among the trees here. Weeds are not allowed to get a start. Some think working the soil when dry does no good, but the reverse is the case. Care must be taken that roots are not cut or disturbed. One of the difficulties of this business is the getting of suitable land for the purpose, and this cannot be gotten in one place. The firm rents for a term of three years, I understand, paying the farmer a rental more than they can make clear by farming grain. One nursery that we went to see was three miles out of town.

I spent most of the time with the oldest son of the firm. There are but two, Robert and John, and they are men especially adapted for the business. They are strictly honest and upright in all their dealings and well-versed in all the new modes of propagating. They have an extensive list of varieties which is carefully kept correct in name so far as they are concerned. They justly deserve the reward that they have been receiving and deserve more in the future.

Their packing house is 70 x 140 feet, in which they could store an immense amount of stock, as it is frost proof. It is fitted up for all work to be done in there. Great piles of lumber are sawed ready to be made into boxes, packing materials, etc., in abundance. A specimen peach orchard of some 40 or 50 varieties of one, two or three trees each will be a nice place to stroll about in when there is a crop of fruit there, and if spared that long I shall try to be there then. The trees are the picture of health and vigor. There is not a sign of anything like yellows on the ground.

---

### **Extract from Paper read before the Missouri State Horticultural Society at New Haven, June 5th.**

#### **Suggestions on Peach Culture. By W. R. Wilkinson, Pres. State Board of Agriculture.**

I prefer Missouri-grown trees, one year old from bud, and know of no better nursery than the one situated right here in New Haven, Mo. I have bought thousands of these trees from them and have always found their output true to name, and good trees in every respect.

---

### **From Western Fruit Grower.**

While in St. Louis recently, a representative of the Western Fruit-Grower went out to spend the day with R. J. Bagby of the New Haven Nurseries, New Haven, Mo. This nursery is on the main line of the Missouri Pacific railway, about sixty miles west of St. Louis.

The day we were at New Haven was an ideal one, and a trip was made through the nurseries. This firm was established many years ago by the father of the two younger Bagbys who now have charge of the plant. From the first a good business was done, which has grown until now the New Haven Nurseries are one of the largest in the West, and their goods have a high reputation. The grounds are kept in perfect condition, with no insects or diseases present, so that A No. 1 stock is delivered to purchasers. The high quality of the stock sent out by this firm is illustrated by the fact that carloads of peach trees have been shipped to California, where they are subjected to the very severe inspection of the authorities of that state. Notwithstanding this inspection, no stock has been turned down.

The peach is a specialty of the New Haven Nurseries, and some magnificent blocks of trees will be ready for market during the coming season. One thing which impressed us at the time of our visit was the experimental peach orchard. This is a small orchard, kept in perfect condition, where varieties are tested, and from which buds are secured for propagating purposes.

All parts of the nursery were in perfect condition, and trees were making a splendid growth. We noticed especially Japanese plums in bearing; they were loaded literally. These varieties are generally full of fruit this year.

## WHAT SOME OF OUR CUSTOMERS SAY.

*Deita, Colo.*, March 30, 1900.—“Trees very satisfactory.” (20,000 Elberta.)

*Salem, Oregon*, Dec. 26, 1899.—“Car of trees came several days ago and very satisfactory.”

*Downey, California*, Jan. 20, 1900.—“The Peach trees are here in perfect condition, am well pleased.”

*Fresno, California*, Feb. 9, 1900.—“The car of Peach trees arrived in good order and satisfactory.”

*California, Mo.*, Oct. 21st, 1900.—“Car trees arrived on time and were as fine as I ever saw.”

*Columbia, Mo.*, Nov. 1st, 1900.—“It may interest you to know that of about 75 varieties of peach trees sent here by you to be tested two years ago, all but one tree are now alive and doing extra well. They have made splendid growth and are now full of fruit buds, so they should fruit next year for the first time.”  
J. C. WITTEN.

*Tadmor, Ohio*, Nov. 5th, 1900.—“We have commenced to unload, and so far as we can see they are very fair. The roots are excellent.”

*Oceola, Mo.*, Nov. 5th, 1900.—“Peach trees received. They are nice and all right.”

*Washington, Mo.*, Nov. 13th, 1900.—“This was the best lot of trees I ever bought, or ever saw and am well satisfied.”

*Springfield, Mo.*, Nov. 7th, 1900.—“Peach trees came O. K. and are fine.”

*St. Charles, Mo.*, Nov. 21st, 1900.—“The trees arrived in good shape and have been planted with extra care. I am highly pleased with them.”

*Villa Ridge, Mo.*,—“Trees came duly to hand. They were the finest stock I ever saw.”

*St. Joseph, Mo.*, April, 1900.—“I ordered a great deal of stock this season from five different places, but none suited me better than yours.”

*Thurston, Oklahoma*, April 6, 1900.—“The trees came last night all O. K. I think they are fine.”

*Norton, Kansas*, April 10th, 1900.—“The fruit trees I ordered of you have arrived in splendid order. I consider them as fine a lot of nursery stock as I ever handled.”

*Hamilton, Kansas*, April 9th, 1900.—“Received trees in good order and am well pleased with same.”

*Hannibal, Mo.*, April 6th, 1900.—“Trees received all right. A splendid lot.”

*Waverly, Mo.*, Aug. 1901. “I visited an Orchard of Mr. Hall’s of this place, to whom you sold some four years ago. They are most excellent and on that presentation, I communicate with you for trees.”

*La Monte, Mo.*, Aug. 29th, 1901. “The trees that I bought of you have pleased me so much that I have spoken of them to my friends.”

*Superior, Neb.*, Aug. 1901. “The 1,000 Peach trees I bought of you have done fine.”

*Judge Wilkinson*, President of the State Board of Agriculture, writes—Sept. 2, 1901. “Miller Cling is doing splendid this Year.”

*Wathena, Kansas*. “We had very good luck with the stock we got of you. Did not have any rain from the Month of April to the Month of August and did not loose over 50% of trees set out.”

*Rushville, Ill.*, April 5th, 1901. “The trees arrived all right and we are more than pleased with them.”

*Bentonville, Ark.*, March 28th, 1901. "I received my pear trees on the 26th all right. They are a fine lot."

*Clearfield, Utah*, April 29th, 1901. "The 500 Apple trees you shipped to me on the 8th arrived here on the morning of the 23rd in good condition. The trees have splendid roots. Thanks for prompt treatment. I can recommend you."

*Enid, Okla.*, April 10, 1901. "I am well pleased with the trees."

*Grapevine, Texas*, Feb. 1901. "The trees were delayed en route but have opened up in perfect condition and I am more than pleased with them."

*Bunceton, Mo.* "The 1,530 trees all received last week and I must thank you for the nice lot furnished. I never saw better. Find check for \$137.65."

*Rockville, Ind.*, April 16, 1901. "The trees we ordered arrived in good condition and am well pleased."

*Logan, Ia.*, April 29, 1901. "The goods were fine, we always feel sure of getting nice stock, fully up to grade, when ordering of you."

*Griggsville, Ill.*, April 19, 1901. "Enclosed find draft. Dr. S. says his trees are the best he ever saw. I know that my trees that came from you are better than from any one else."
